THE GREEK EDUCATIONAL SYSTEM

The goal of the Greek educational system

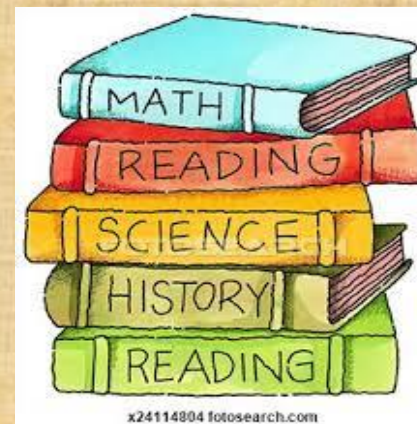

“is to contribute to the overall, harmonious and balanced development of the mental and psychosomatic forces of the students, so that, regardless of sex and origin, have the potential to become integrated personalities and live creatively

The aims of the Greek educational system

- Humanistic education
- Environmental Education
- New technologies
- Multilingualism and language learning Promotion of the Greek language abroad
- Connecting education to our culture, to enhance our cultural consciousness.

Specifically, school helps students

- To become free, responsible, democratic citizens
- to defend their national independence and democracy,
- to be inspired by the love of humanity, life and nature
- to respect human values

- To acquire, through school education, their social identity and consciousness,
- To realize the importance of art, science and technology.
- to preserve and promote civilization and the values of our democratic tradition
- To develop a spirit of friendship and cooperation worldwide, looking forward to a better, fair and peaceful world

Structure of the Greek educational system

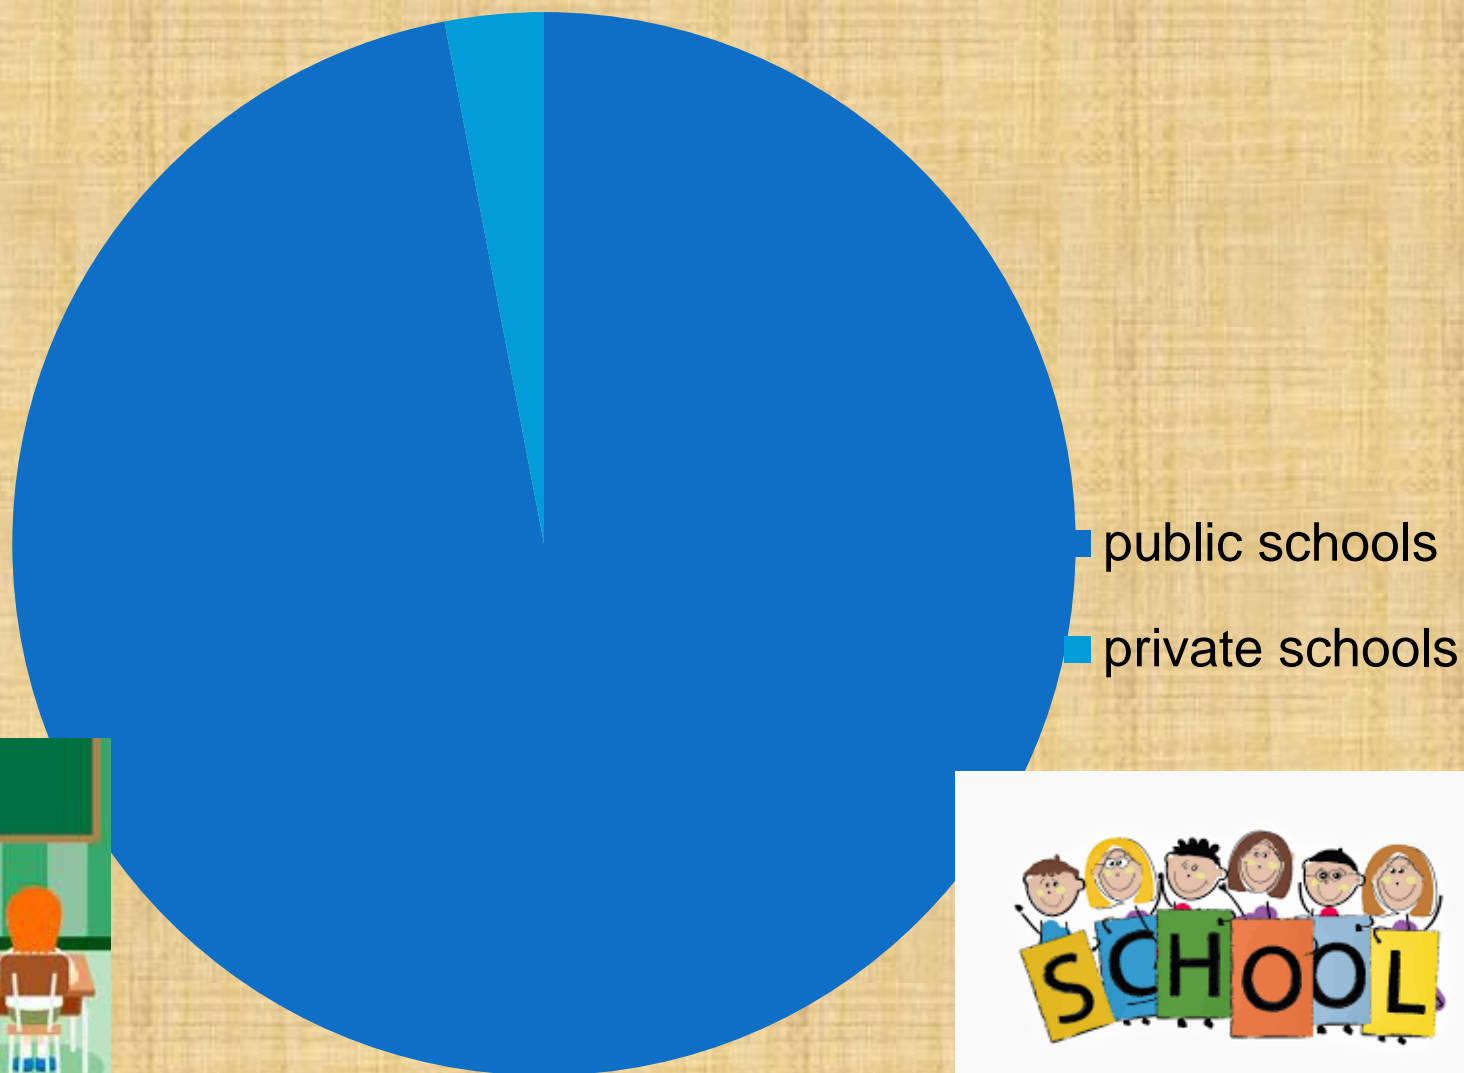

(The simplest version)

Age	School Type

Student's evaluation

- The evaluation for the first 2 grades is *descriptive*. At the end of the school year all the students are promoted to the next grade. The only criteria is the sufficient attendance. Rarely a student repeats a class.
- From primary to junior high school there are no examinations.
- Junior high school (gymnasium) students evaluation: writing and oral tests, essays during the school year, final examinations at the end of school year.
- There are no other examinations from the junior high school to semi high school (lyceum)

Qualifications of Educational personnel

- All the teachers have a University degree in Educational Sciences. (4 years course)
- Appointed by the government after a competition
- Many teachers have a second University degree, or a Master degree.
- School directors have a lot of certified qualifications (2nd degree, MA, PhD)

School funding

- From the central government through the local municipalities.
- School directors are responsible for the financial management in cooperation with a municipal committee
- Teachers are civil servants, paid by the government.

From High to the Higher education

- Students who have completed the high education can take part to examinations which are organized by the ministry of education for all the country.
- The system in Higher Education institutions is based on planned positions available (numerus clausus), preferences faculties / departments of the candidates and the results from the general examinations.

- Song
- Celebration (Kool and the Gang)
